Taxable sales and purchases	ND Office of Tax Commissioner	https://www.nd.gov/tax/data/upfiles/media/2017-annual-report.pdf?20180725141125	spreadsheet, year 2017
Water utility rate	AE2S Nexus	www.ae2s.com / www.ae2snexus.com / Copyright 2017 © AE2S - All Rights Reserved. Information is provided on a voluntary basis by participating systems. There is a good cross section of ND communities included, but not all cities are in this data. You will readily note that the monthly utility costs among communities are highly variable. This can be attributed to a number of factors, such as water source, community size, presence/absence of a mechanical wastewater treatment plant, topography, condition of the existing infrastructure, and local policies relative to depreciation and capital improvement funding. The information presented can be used to determine where a community would rank based on a typical monthly residential utility bill with consumption of 6,000 gallons, bearing in mind this variability.	spreadsheet, February 2018
